

Pittville Gate Lantern Tall

The Pittville Gate Lanterns are inspired by the traditional oriental Pagoda roofed buildings that inspired so much Georgian colonial architecture. These fabulous outdoor gate post lights bring opulence to any period property. The Pittville collection offers multiple options including hanging and wall lanterns, also available in a lamp post versions and pillar lights in two sizes. This collection suits medium to larger period properties.

ESTIMATED LEAD TIME	approx 3-5 weeks
CLEANING AND MAINTENANCE	All products are made of solid brass or solid brass and copper. As an alloy, they will not rust or rot. However, an un-lacquered polished natural brass finish, will patina and mellow in colour and we feel this improves the look of our products. Lanterns in un-lacquered finishes, will need regular polishing, in order to retain a new shine if required. We can make fittings look older than they are, using Distressed Antique Brass and Distressed Dark Antique Brass finishes. Please specify your required finish when ordering
